are maintained to the satisfaction of the utility. The utility may install the standard detector type meter approved by the Board of Fire Underwriters for protection against theft, leakage or waste of water and the cost paid by the applicant. Such payment shall not be subject to refund.

4. For water delivered for other than fire protection purposes, charges shall be made under Schedule No. 1, General Metered Service.

5. The utility undertakes to supply only such water at such pressure as may be available any time through the normal operation of its system. Section 774 of the Public Utilities Code limits the liability of the utility resulting from a claim regarding the provision or maintenance of an adequate water supply, water pressure, equipment or other fire protection facility or service. Acceptance of service under this tariff is acknowledgment of notice of the provisions of Section 774 of the Public Utilities Code.

6. The minimum diameter for fire protection service shall be two inches, and the maximum diameter shall be not more than the diameter of the main to which the service is connected.

7. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

8. To amortize the under-collection in the Balancing Account, a surcharge of \$0.0064 per 100 cu. Ft. is to be added to the Quantity Rate shown above for a 12-month period beginning with the effective date of this tariff.
