SPECIAL CONDITIONS

1. Customers who receive water deliveries for agricultural purpose under this schedule, and who present evidence to the utility that such deliveries qualify for the lower pump tax rates levied by the Santa Clara Valley Water District for agricultural water, shall receive a credit of \$5.0257 per 100 cubic feet on each water bill for the quantities of water used during the period covered by that bill. (L)
2. All bills are subject to the reimbursement fee set forth on Schedule No. UF. (L)
3. To fund the Customer Assistance Program (CAP) for residential low-income households, a surcharge of \$2.61 per month will be added to the bill. (I)
4. It is the Company's intent to provide service to all its customers to the full extent of its capacity to serve, except that in the event that there is a substantial risk to the Company's ability to maintain service to customers in the Mountain District, the Company, at its sole discretion, may temporarily interrupt or reduce service to such customers.

Such interruption or reduction of service may occur when (1) customer consumption, or (2) significant electrical, mechanical or supply issues challenge the Company's ability to meet demand for service. Should service be interrupted, the Company shall give timely priority to remedies that are within its control to alleviate the need for the interruption of service.

The Company will inform customers of planned improvements to its facilities serving the Mountain District through its annual system status report to Redwood Estates Service Association.

When service is interrupted, the Company agrees to promptly notify the interrupted customer's designated representative (one per mutual water company). Such notification shall be provided by telephone or by a reasonable alternative method specified by the customer and acceptable to the Company. It is the customer's responsibility to provide the Company, in writing, the name and contact information for its designated representative, to update that information, in writing when appropriate, and to ensure that any designated representative shall maintain an active answering system and e-mail address capable of receiving and recording service interruption information.

5. Each of the Mutual Water Companies served by San Jose Water Company in the Mountain District shall be charged one Service Charge, based on the Mutual's meter size. San Jose Water Company shall provide each of the Mutual Water Companies one single quantity rate usage allocation per customer individually served by the Mutual Water Company, as described under Quantity rate per Ccf. above. Thus, each Mutual Water Company will be charged at the Single Quantity Rate for usage times the number of customers the Mutual Water Company individually serves.

7. Upsize Charges as shown under Schedule No. 1B General Metered Service with Automatic Fire Sprinkler System's Service Charges shall also apply to Schedule No. 1C Special Conditions 1 and 2 of Schedule No. 1C as noted below shall also apply to this schedule. (L)

- 1) Any service to a residential customer who requires a large meter because of fire flow requirement to a fire sprinkler system will be billed (i) a meter service charge, for the appropriate meter size determined based on the normal water use of the customer excluding the fire flow requirement; and (ii) an upsize charge, determined by the difference between the actual Meter size required including the fire flow requirement and the appropriate meter size required without the fire flow requirement; and (iii) the quantity rate based on the quantity of water used.
- 2) For the purpose of fire protection under this schedule, the utility will supply only such water at such pressure as may be available from time to time as a result of its operation of the system. Section 774 of the Public Utilities Code limits the liability of the utility resulting from a claim regarding the provision or maintenance of an adequate water supply, water pressure, equipment or other fire protection facility or service. Acceptance of service under this tariff is acknowledgement of notice of the provisions of Section 774 of the Public Utilities Code.

The addition of General Metered Service with Automatic Fire Sprinkler System's Service Charges to this tariff shall be subject to Special Condition 4 - Interruptible Service of this Schedule.
