San Jose Water Company (U-168-W) (SJWC) hereby transmits for filing the following changes in tariff schedules applicable to its service area and which are attached hereto:

2303-W	Schedule No. RW –Raw Water MeteredService (Continued)	2259-W
2304-W	Table of Contents	2296-W

With this advice letter, SJWC requests authorization to increase revenue by \$28,274,912 or 5.3% to offset the increases to purchased potable water charges, the ground water extraction fee, and purchased recycled water charges that will be implemented by SJWC’s water wholesalers effective July 1, 2024.

These tariffs are submitted pursuant to General Orders (GO) No. 96-B Water Industry Rules 7.3.1(7) and 8.4. This advice letter is designated as a Tier I Advice Letter.

Background

On May 31, 2023, SJWC filed Advice Letter (AL 596) to include in rates the increase in purchased water, pump tax, and recycled water costs from its wholesaler.

At its May 14, 2024 meeting, Valley Water’s Board of Directors formally adopted water rate increases for the 2024-2025 fiscal year, raising the groundwater rate (pump tax) to \$2,229 per Acre Foot (AF) and the purchased water rate to \$2,344/AF effective July 1, 2024. The groundwater rate

will increase by \$255/AF from the July 1, 2023 rate of \$1,974/AF (AL 596) and the purchased water rate will increase by \$255/AF from the 2023 rate of \$2,089/AF (AL 596).

Valley Water's groundwater charge for agricultural increased from 36.85/AF to \$39.80/AF which affects the agricultural discount provided by Valley Water and passed through in SJWC's tariffs. The discount will increase from \$4.4471/ccf to \$5.0257/ccf ($\$2,229/AF - \$39.80/AF = \$2,189.20/AF = \$5.0257/ccf$).

The updates to purchased water rate, groundwater rate, and agricultural discount are reflected in SJWC's tariff Schedule No. 1 - General Metered Service, Schedule No.1C - General Metered Service Mountain District, and Schedule No. RW - Raw Water Meter Service.

Changes to the rate for untreated water also affect the rate for purchased recycled water. South Bay Water Recycling, SJWC's wholesale recycled water provider, indexes recycled water wholesale rates to the rates charged by Valley Water for untreated water, with appropriate discounts for irrigation, industrial, or agricultural use. The recycled water discount remains at \$105 for irrigation, industrial, and agricultural uses. Effective July 1, 2024, wholesale recycled water rates will be increased by \$255 per AF from adopted July 1, 2023 rate of \$1,869 to \$2,124 per AF.

This updated to recycled water rate is reflected as Special Conditions in SJWC's tariff for Schedule No. RCW for Recycled Meter Water Rate.

Please see **Attachment A** for actual rate effective July 1, 2024. The following is a summary of total increase in costs:

Increase in Purchased Water	\$17,639,256
Increase in Ground Water Charge	\$9,653,141
Increase in Purchased Recycled Water	\$882,915
Increase in Taxes and Uncollectibles	\$99,600
Total Increase in Costs	\$28,274,912

Copies of detailed workpapers supporting the proposed rate increase and rate calculation have been provided to the Commission Staff in accordance with Standard Practice U-27-W.

Public notice of the offset rate adjustment will be completed by placing a notice (**Attachment B**) in the San Jose Mercury News as soon as possible. Proof of publication will be submitted to the Commission when the notification has been completed. In compliance with Paragraph 4.3 of General Order 96-B, a copy of this advice letter has been emailed to all interested and affected parties as detailed in SJWC's Service List (**Attachment C**).

Effective Date

SJWC requests that the updated tariff sheets become effective July 1, 2024.

1. That pursuant to Section 26.5 of the Santa Clara Valley Water District Act (“District Act”), a written report detailing Valley Water’s activities in the protection and augmentation of the water supplies of Valley Water has been prepared including: a financial analysis of Valley Water’s water utility system, information as to the present and future water requirements of Valley Water, the water supply available to Valley Water, and future capital improvements and maintenance and operating requirements; a method of financing such requirements; a recommendation as to whether or not the groundwater production charge should continue to be levied in any zone or zones of Valley Water during the ensuing fiscal year; and a proposal of a rate per acre-foot for agricultural water and a rate per acre-foot for all water other than agricultural water for Zones W-2, W-5, W-7, and W-8;

SAN JOSE WATER COMPANY

ADVICE LETTER NO. 609

ATTACHMENT B

PUBLIC NOTICE FOR RATE OFFSET

P U B L I C N O T I C E

NOTICE OF ADVICE LETTER FILING SAN JOSE WATER COMPANY'S FILING TO INCREASE WATER RATES ADVICE LETTER 609

Effective July 1, 2024, Valley Water, the wholesale water supply agency to San Jose Water Company (SJWC), will increase rates for purchased water and groundwater extraction fees charged to SJWC. If the CPUC approves this advice letter, effective July 1, 2024, rates will be recalculated to reflect actual water consumption in 2024. This will increase your bill.

Why is SJWC requesting this increase?

SJWC pays fees to pump groundwater and to purchase treated water from Valley Water, Santa Clara County's wholesale water supply agency. On May 14, 2024, Valley Water voted to increase wholesale water charges by \$255 effective July 1, 2024, through June 30, 2025. SJWC purchases over 90% of its water supply from Valley Water and delivers it to homes and businesses. The cost of this water supply is passed through to customers at cost. SJWC is filing Advice Letter 609 to recover the pass-through increase.

How could this affect my water bill?

If SJWC's rate request is approved by the CPUC, the monthly bill for the typical residential customer with a 3/4-inch meter using 11 Ccf (1 Ccf = 748 gallons) per month would increase by approximately \$6.65 (or 5.5%) from \$121.03 at present rates, to \$127.68 starting July 1, 2024. This amount will be reflected on customers' bills through the quantity charges as shown below. A comparison of the current and the proposed quantity rates is as follows:

Tariff Schedules No. 1. General Metered Service, Schedule No. 1B General Metered Service With Fire Sprinkler System and Schedule No. 1C General Metered Service, Mountain District

	Current Quantity Rate	Proposed Quantity Rate
Residential Customers		
Tier 1: For Monthly Usage from 0-6 Ccf	\$4.8779	\$5.5004
Tier 2: For Monthly Usage from 6-12 Ccf	\$6.7698	\$7.3705
Tier 3: For Monthly Usage over 12 Ccf	\$10.1501	\$10.7508
All Other Customers		
Quantity Rate	\$6.7698	\$7.3705

Tariff Schedules No. RW Raw Water Service

Current Quantity Rate per Ccf	Proposed Quantity Rate per Ccf
\$6.5402	\$7.1409

Tariff Schedules No. RCW Recycled Water Service

Current Quantity Rate per Ccf	Proposed Quantity Rate per Ccf
\$6.2910	\$6.8785

How does the rest of this process work?

This advice letter will be reviewed by staff in the Water Division of the CPUC. They will determine if the request is reasonable and determine if modifications are necessary.
