2293-W	Table of Content	2291-W

These tariffs are submitted pursuant to General Orders Nos. 96-B Water Industry Rule 7.3.3(11) and Water Industry Rule 8.7.

The purpose of this advice letter is to request authority from the California Public Utilities Commission (Commission) to withdraw service to an existing SJWC customer on parcel APN#491-36-001.

Summary

Parcel APN #491-36-001 is a business facility wholly within SJWC’s service area that currently does not have its own service line. It has been served for the past 35 years through a shared service with the adjacent mobile home park who is a SJWC customer. The owner of parcel APN #491-36-001 is now looking to establish its own service. SJWC does not have a main in the vicinity that can serve this customer individually. In order provide service to this lot, the owner will have to hook up to SJWC main but this will require significant trenching as well as easements from adjacent properties (mobile home or airport). This is too costly and inefficient for the customer.

The adjacent water system, San Jose Municipal Water System (SJMWS), has a main in front of this property on Tully Road and can provide service without the significant trenching and easements required. Given the efficiency involved for all parties, SJWC is agreeable to allowing the SJMWS to serve this lot.

Effective Date

SJWC requests an effective date of May 23, 2024.

- 5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- 6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).
